

Attention all PPLs! Turweston Flying School is now offering advanced flying training for all pilots wishing to develop their skills. Using the Slingsby T67, we are offering spin awareness, advanced manoeuvring and aerobatic training that will help all pilots develop their handling and confidence, no matter what level of experience. It's fun flying, with training tailored to individual needs.

For more exciting flying that will help you gain another important piloting skill is the formation training that we have recently introduced. We can use club aircraft or your own aircraft, in a safe and supervised training environment. Speak to our satisfied customers to see what it can do for you!

For more details, contact the flying club today!
