

Turweston Flying Club

www.turwestonflyingclub.org.uk

This is just to let you know that flying training at Turweston is changing, growing, and improving!

From May 1st, the school will be changing its name to Turweston Flying Club - the emphasis being on the CLUB in the name. We want to encourage Club Members to get involved, building a Club of like minded aviation enthusiasts, increasing and improving their flying from Turweston.

PPL training will continue as before with Mike running the training and assisted by Simon. Advanced training, including differences training, advanced handling, AOPA aerobatics etc will be introduced and developed by Paul and Simon. They will also be holding 'Training Days' and encouraging fly outs by club members. Eddie will be running the ops desk and any enquiries!

As well as continuing to improve the accommodation and facilities to develop the more 'club' like environment, we intend to offer additional benefits to club members.

BASIC CLUB MEMBERSHIP

The benefits of Basic Club Membership include:

- Use of Club aircraft for training or self hire at published rates
- Use of club accommodation for planning, training, and talking flying
- Internet booking for self fly hire
- Training Days and Flyouts
- Instructor Advice and Ground Training

PILOTS' CLUB MEMBERSHIP (Licence Holders only)

In addition to all the benefits of Basic Club membership, Pilots' Club Members will be eligible for substantially discounted rates for hire of all club aircraft. Pilots' Club members will find that the cost of any flight, from a half hour 'circuit brush up' or multi-hour tour abroad will compare with aircraft share ownership or outright aircraft ownership, without the hassles and potential costs involved with your own aircraft.

Internet booking will allow you to book at short notice and Pilots' Club members will have access to the aircraft outside normal club hours. Fancy an evening flight after work to wind down? Check the internet, book the aircraft and you're free to fly!

Pilots' Club members will also benefit from:
Discounted sales from the Club shop
Priority access to Club fly outs
Free access to a club instructor for Biennial Training Flights

We will also be offering a Social Membership with the aim of attracting aircraft owners who are based at Turweston to join in with the Club's aims and development. Benefits of the membership include use of the Club facilities as well as free access to a Club instructor for their Biennial Training Flight.

For more details see our new website
www.turwestonflyingclub.org.uk including the new online booking system!

More news to come soon!

Happy Landings
